Kawthar Khayet

Final-Year Data Science & AI Engineering Student — Seeking a Final-Year Internship

+212 7 19 09 45 34 | khayetkaouthar@gmail.com | github.com/kawthar-khayet | LinkedIn | INPT, Rabat

Final-year engineering student specializing in Data Science and AI, with experience developing data-driven and AI-powered solutions. Experienced in translating business challenges into practical technological solutions through industry experience and end-to-end projects. Strong analytical and problem-solving skills, attention to detail, and the ability to communicate complex ideas effectively in technical and collaborative environments. Seeking to join a consulting firm to help organizations address digital transformation challenges, unlock the value of their data, and adopt AI-driven solutions.

EDUCATION

Third-Year Engineering Student — Data science 2024 — 2027
National Institute of Posts and Telecommunications (INPT), Rabat

Preparatory Classes — PCSI / PSI* 2022 — 2024
Lycée Ibn Taymiya, Marrakech *Class Rank: 19*

Scientific Baccalaureate, Mathematics Track B 2021 — 2022
Lycée Mohammed VI, Marrakech *Honors: Highest Distinction*

PROFESSIONAL EXPERIENCE

Data & AI Engineering Intern — DXC Technology Jul. — Aug. 2026
OpsCopilot AI: AI Copilot for IT Support Automation *Salé, Technopolis*

- Designed an **LLM-powered agent** (Groq, tool calling) to diagnose incidents by combining a **RAG pipeline** (ChromaDB, multilingual E5 embeddings) with real infrastructure monitoring data.
- Developed an **MCP server** exposing **10 tools** (capacity monitoring, backups, snapshots, restoration), executed over SSH on a Linux VM and classified by risk level.
- Implemented a **human-in-the-loop workflow**: autonomous fault detection, remediation subject to engineer approval, and **post-execution verification on the machine** before ticket closure, with full auditability.

AI Engineering Intern — AI-Crafters Jul. 2025
Multi-AI Social Learning Agent for Adaptive Collaborative Learning *Casablanca*

- Developed a **learning partner recommendation engine** based on skill similarity (TF-IDF, cosine similarity, Scikit-learn), integrated into a **Streamlit** interface.
- Integrated the **Gemini API** to generate personalized learning challenges and automatically evaluate responses.

PROJECTS

CineMatch — Hidden Gem Recommendations & Trending Movie Prediction *cinematch.azurewebsites.net*
End-to-end data platform that helps individuals and groups discover **high-quality, lesser-known movies**, explains each recommendation, and identifies movies likely to **trend in the future**. **Deployed on Azure** (App Service), with automated daily updates through an Airflow pipeline.
Tech Stack: Spark, Kafka, RustFS, Delta Lake, dbt, Airflow, PostgreSQL, Docker, Next.js, Azure — TMDB, IMDb, and MovieLens datasets

DwaTalk — AI Assistant for Medicines & Pharmacies *pharmacy-assistant-darija.vercel.app*
Conversational assistant supporting Moroccan Darija, Arabic, and French, connected to a database of **15,441 medicines** and **2,652 pharmacies** to provide structured answers. Also features **medicine packaging recognition** from images using Arabic/French OCR and fuzzy matching against the database.
Tech Stack: Python, FastAPI, Ollama Cloud (few-shot LLM), EasyOCR, RapidFuzz, Pydantic, Docker, GitHub Actions

SentimentAnalysis — Sentiment Analysis of E-commerce Customer Reviews
Scraped customer reviews from Shopee and compared **7 NLP approaches** (VADER, AFINN, SentiWordNet, KNN, TF-IDF + logistic regression, DistilBERT, and RoBERTa) to identify the best-performing model.
Tech Stack: Python, BeautifulSoup, Selenium, Scikit-learn, Hugging Face Transformers, NLTK, FastAPI, React, Docker

CERTIFICATIONS

AWS Certified AI Practitioner | **AWS Certified Machine Learning Engineer – Associate** *(In Progress)*

TECHNICAL SKILLS

Machine Learning & AI	MCP, AI agents, LLMs, scikit-learn (classification, logistic regression, KNN, TF-IDF), Hugging Face Transformers, NLTK, RAG, ChromaDB, MLOps
Deep Learning	CNN-LSTM, Wav2Vec2, Gradio
Programming & Data	Python (pandas, NumPy), SQL (PostgreSQL), NoSQL, TensorFlow, PyTorch, YOLO
Data Engineering	Spark, Kafka, Airflow, dbt, Delta Lake (Medallion Architecture), PostgreSQL, NoSQL, MinIO/S3, RustFS
Software Development	FastAPI, Next.js, React, Streamlit, Selenium, BeautifulSoup, REST API design, Pydantic, third-party API integration
DevOps & Deployment	Git, GitHub Actions, CI/CD pipelines, Docker, Azure App Service deployment, workflow automation
Systems & Tools	Linux, SSH, Git, Power BI
Languages & Soft Skills	Arabic (Native), French (Fluent), English (Fluent) — Autonomy, problem-solving, analytical thinking, attention to detail, adaptability, teamwork, and technical curiosity

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Committee Member — INPT Student Union (BDE) 2025 — 2026
Events Team Lead — INPT Arts Club 2025 — 2026
